DETAILED ACTION

Allowable Subject Matter

1. Claims 6-19 allowed, they have been renumbered 1-14.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

Independent claim 6 establishes the limitation of means for forming a second set of audio signals of said plurality of audio signal based on a second gain requirement of said plurality of distinct gain requirements, said second set of audio signals being different than said first set of audio signals. Newly cited prior art Porter, III (US Patent 5,633,938) discloses an apparatus for adjusting and applying gain to sets of audio signals. However Porter III does not disclose said second set of audio signals being different than said first set of audio signals. Yamamuruo et al. (US Patent 4,472,834) does not disclose said second set of audio signals being different than said first set of audio signals or means for summing together a plurality of weighted signals.

Independent claim 11 establishes the limitation a plurality of summing nodes configured to form different sets of audio signals base on each individual gain requirement of each audio signal. Porter III does not disclose a plurality of summing nodes configured to form different sets of audio signals base on each individual gain requirement of each audio signal.

Claims 16 and 13 have similar limitation to claims 6 and 11 and are therefore allowed along with their dependents.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
